

Sponsor Application

What XKGLOW requires from you if you are chosen for a sponsorship:

1. Within a reasonable amount of time, we expect high quality/high-resolution pictures. You must have access to a DSLR camera/tripod. It can be yours or a friends/family member or paying a professional photographer. If a professional photographer is used they must sign a waiver that allow us to use the images in marketing. Cell Phone cameras do not produce pictures with high enough clarity for our needs. We prefer RAW format or professionally edited photos.
2. You must attend the shows that you list in the application. We understand that things come up and you may miss a show here or there. When at a show please take a quick picture of your set up at the show so we can post it online, as well.
3. When posting a picture on social media please tag us @XKGLOW and use the #xkglow hashtag.
4. **When submitting this application please provide DSLR quality photos with your application for us to review. Submit your application and pictures to: xk@xkglow.com**
